Summary

I'm a since 2018 Berlin-based ex-German teacher who got to participate on a Hackathon to develop an app to teach German and ended up finding more interesting the programming part than the German language one. Since then, my tech journey started and now I've been on it for more than 3 years.

I love to develop interesting applications, to show my creativity through coding and to see the very nice results development technologies allow us to have.

In my Software Engineering path, I made experiences with:
Data Science and Machine Learning
Python
Java
HTML, CSS, Javascript (WebDev core combo)
©##
♀# Agile methods and SCRUM frameworks

Personally, I'm also:
Part of the LGBTQIA+ community
Into MMROPG
Very much into music making and producing
Amateur bike lover
♀# Feminist (intersectional)

Please, if you think my profile is interesting do not hesitate to connect or to send me a message :)

Experience

Software Development Apprenticeship
itacs
Mar 2022 - Present (6 months +)

Self Employed Translator and Language Instructor
Autônomo
Jul 2015 - Present (7 years 2 months +)
Tutoring and Translations for German students with very positive feedback from them.

Working Student Business Analytics (FR/IT)
Audible
Oct 2019 - Feb 2020 (5 months)

Education

ReDI School of Digital Integration

Python Fundamentals, Computer Programming

Feb 2022 - Jun 2022

Fundamentals of coding, such as coding structures and logic using Python.

Humboldt-Universität zu Berlin

Bachelor of Arts - BA, Computer Science and German Linguistics

2020 - 2021

Exchange semesters in the fields of Computer Science and Linguistics

SPICED Academy

Data Science Bootcamp, Date Science

2019 - 2019

Data Analysis in Python

Machine learning

Data visualization and reporting

SQL & NoSQL

Data Infrastructures

Git & Github

Pontifícia Universidade Católica do Rio de Janeiro

Bachelor Degree in International Relations and Affairs, International Relations and Affairs

2012 - 2016

Colégio Farroupilha

High School

2002 - 2011

Licenses & Certifications

Goethe Certificate C1 - Goethe-Institut e.V.

Certificate of Completion Python 3 Tutorial - Sololearn

Certificate #1073-13212859

DSH Certificate C2 - Humboldt-Universität zu Berlin

Goethe Zertifikat C2 - Goethe-Institut e.V.

Learn C# Course - Codecademy

Learn JavaScript Course - Codecademy

Coding Fundamentals - ReDI School of Digital Integration

Skills

C# • .NET-Framework • HTML • Cascading Style Sheets (CSS) • JavaScript • Microsoft Office • Negotiation • Team Leadership • Teamwork • Spanish

Honors & Awards

German Reading Contest - Coordination of German Language in the States of Rio Grande do Sul and Santa Catarina
Apr 2008
1st place in the category German as a Foreign Language

German State Reading Contest - Coordination of German Language in the States of Rio Grande do Sul and Santa Catarina
May 2008
3rd place in the German as a Foreign Language category

German Language Reading Contest - Coordination of German Language in the States of Rio Grande do Sul and Santa Catarina
May 2011
1st place in the German as a Second Language Category

Machine Learning Hackathon Servus Alexa - N3XTCODER
Jan 2019
The mission for the Hackathon:
Draw on a worldwide network of german learners to create the largest database of accents for machine learning available
Gamify the creation of the largest training set for accent recognition available to machine learning
Develop with us a new AI to help non-German speakers to learn german
Build the new generation of Virtual Assistants for language learning
